Principal's Report - May 2015

Class Configuration / Class Building

The process of allocating staffing to schools is not yet complete and we still do not know how many divisions Prospect will have next year. Once this number has been finalized we will begin the process of "building" our classes for next year. In addition to the presentation at the PAC meeting regarding this topic, an information letter explaining the process will be sent home to families.

School Dance / Silent Auction

Prospect Lake's Family Dance and Silent Auction took place on Friday, May 22 and it was an enormous success!! The Western theme brought out cowboy hats and gear of every description and everyone had fun. Many thanks to our organizing committee headed by Stef Hutchison, to our DJ, Carrot Top and to the many, many parents who pitched in to help. In addition to strengthening our school community, this event also raised money to support ongoing school projects such as our Outdoor Learning Places. Thank you to all of those who donated to our Silent Auction!!

Dansko Artists in Residence

Our Spring Artists in Residence from Dansko Studios were a tremendous success. Over the course of a month all students were involved in a series of Hip Hop style dances lessons that culminated in a recital for parents. The students thoroughly enjoyed the lessons and gave an outstanding performance.

Grade Four Bike Program

Our Grade Four Cycling program was a great success once again this year. Mr. Warren Hamm assisted the children in learning safe cycling skills that convert into the habits of a lifetime. Our thanks to Mr. Hamm for once again bringing this program to Prospect.

Science Fair

Students in grades 3, 4 & 5 have been working on science experiments and demonstrations that went on display on Thursday, May 21. Judging will took place in the morning and the gym was open from 12:00 until 6:00 for families to view the displays.

Camp Thunderbird

Final preparations are underway for the grade five trip to Camp Thunderbird which will take place in the first week of June. Fund raising has been extremely successful and all that is needed now is sunny weather for the trip.
