GRAB and GO bag

Gather together the following items in a backpack (one for each member of your family) and have it stored in a location that is easy to find in case of an emergency. This doesn't replace your 72 hour supplies but should keep you comfortable in the first 12-24 hours of an emergency, especially if you are evacuated from your home. (If you are evacuated, leave a note for friends and family explaining how you are and where you are going. Shut off utilities before you leave—remember that gas must be re-connected by an official agent of the gas company.)
