

# Outdoor learning projects

The teachers have selected four fairly simple projects that they think will add great value to the kids outdoor play space. The costs of these projects will probably be small and only require a bit of coordinated effort.

Project #1-Painted games on picnic tables. 1 teacher and 2 parents could head up this project.

Project#2-Wooden sorting box. We would need a carpenter

Project#3-Wooden sorting. Maybe 2 parents could head this up.

Project#4-Musical wall. Rose Gladwin would be happy to spearhead this project with 1 other parent.
